

All Change in the Organisation from 1st August

We are pleased to inform you that our new office location is:-

Forth Valley College, Middlefield, Grangemouth Road, Falkirk, FK2 9AD. Phone: 01324 403103, Fax : 01324 403108.

Emails are:

Frank.mckeever@global-science.net or
frank.mckeever@forthvalley.ac.uk
Alyson.young@global-science.net
Sandra.lowson@global-science.net

We were up and running on 1st August

You may see a couple of name changes Stempoint and global Science

Brokerage Contract

The main feature of the brokerage contract is to ensure that schools are aware of and engaging with the various Stem Providers in the Country. A escalator system is being introduced and Schools will be graded on a 1-5 scale. 5 being the top schools.

Global Science have been consulting with staff in the 9 authorities and we intend to conduct a survey of the High schools within the East area. Once we have conducted our baseline survey the intention is to match schools with providers and move schools up the Escalator.

Local Seas Inductions

We are aware that the set CRB Edinburgh dates don't suit everyone and please feel free to contact us and alternative arrangements will be made to get you signed up at a suitable location. Phone us and we will arrange a sign up at Forth Valley College in a day or so.

Contact Alyson Young at alyson.young@global-science.net or frank.mckeever@global-science.net

Company Sign Ups

Should there be a number of Seas within a Company, we are happy to come out to the organisation involved and complete the induction on site.
