

Holidays

We trust everyone had a good holiday and the schools are now back and your services are required. We intend to keep posting schools request for ambassadors on the stemsotland.com website and Alyson will email local ambassadors via a postcode system.

CRBS & Vetting & Barring Scheme

You may have noticed a number of News items in the various media about Vetting & Barring but the advice we have received is that it does not apply to Scotland.

Updating Activities & Profiles

Alyson has emailed most ambassadors with a reminder about this important aspect and could we remind folks that if you are pressed for time just email us with your activity details and we will enter them against "your Name". All we require are as follows: Date, School, Year Group, Activity.

Science Clubs

Any one interested in helping with a Science Club should get in touch as the Boxes and CD will be ready soon to go out to schools

Up and Coming Events

In November **RSC Chemistry Week** takes place with different events around the East. Please let us know if you are involved in any way.

On November 13th **Clackmannan Science Day** for Primary sevens will be running at Alloa Town Hall and help is always appreciated.

Grangemouth Science Festival will run for 12 days in early March and a Good opportunity for ambassadors to engage with an activity. It could be a couple of hours, Half a day a full day. Or as many days as you would like. Contact Alyson to log your interest.

Borders Festival

Arrangements are being made for a two day event in Hawick during 2010 so again any interest please contact us.

Knex Challenge

We are waiting on details for the 2009/2010 P6 Challenge and we will be looking for Judges and Helpers for schools throughout the East.

Plastics Roadshow at Napier

Some 400 pupils attended this event and it may become an annual event.

Food & Drinks Challenge

St Mungo's High School in Falkirk put 8 classes through a Food & Drinks Challenge and the schools are continuing with the programme to put classes through a Food Hygiene Certificate.

New Science Projected Awarded

Global Science have been awarded two Grants from Scottish Government: One is to extend the Global Climate Change Project the other for a Technology Project using Female mentors. If you or your Company are interested please get in touch.
