

Ambassadors Rebranding

The rebranding has been introduced and full details can be obtained from www.stemnet.org.uk The word SEA is being dropped and replaced by STEM to reflex Science, Technology, Engineering & Maths. This follows the changes from Setnet to Stemnet and Setpoint to Stempoint.

Ambassadors Celebration Event

30th April saw the Celebration event with over 200 people attending the event at Glasgow Science Centre. Over twenty providers were present and a large numbers of teachers attended the event. This was a joint event between Science Connects (Glasgow & West) and Global Science (East)

Initial feedback from the evaluations are very positive.

CRBS Disclosure

There is a backlog at the moment on disclosure forms coming back due a change in legislation regarding adults and a computer problem. Hopefully we can get the forms returned as soon as possible.

Science Ambassador Tool Kits.

We are now getting ready to prepare the toolkit but please drop us a note if you have any suggestions on the types of items you would like to see in the Box.

Deanburn Primary School – All School Science Day

On April the 24th we had a full school Science day in Bo'ness the children had a great day and the event was staffed mainly by Science Ambassadors.

Forth Valley College provided the Science Experiments, Trinni Dinnis done the Science of Hula Hoops, Aileen Lothian supervised the Science Experiments. David

Jamieson & Alyson Young done the “BUGS” Becky Smith done Animates. Willie Rose done a session using S-Cube Boxes, We had a Rocket Session in the playing field and a Knex Challenge. It was an exhausting day for the Ambassadors but a great day for the Pupils.

Thanks to everyone involved from the School and Headteacher.

Edinburgh International Science Festival

A number of Seas have been involved with various projects during the Festival and if you are registered please remember and update your records or drop us a note and we will do it for you.

Launch Events in April.

British Geological Survey launched their “Seismology into Schools project” there are 40 free kits available to Schools. There was a large turnout at Dynamic Earth for the event .

Contact Aoife O’Mongain for more information 0131 667 1000 or check the website www.bgs.ac.uk

Concrete2Cookers

Heriot Watt University launch their project for reducing CO2 emissions . IT is in the form of an interactive online game for school pupils. Look up the project at www.Concrete2Cookers.org.uk. For further details contact Lorna Ross at Heriot Watt, School of the Built Environment.

Knex Challenge 2009

The competition is well underway with the P6 pupils. Any Science Ambassador wishing to help out with judging etc should bet in Contact.

Ambassador Sign Sessions

We will continue to list the dates on the Web site under Ambassador Training. We are running event in Edinburgh, Dunfermline & Falkirk. WE can also provide sign up sessions at work location by arrangement.

Forth Valley College HNC/HND Science & Engineering Day.

We are holding this HNC/HND day to give students an opportunity to hear Ambassadors tell their stories about their Careers and work, followed by an opportunity for the students to talk to those taking part.

Any Ambassadors interested in coming along, please get in touch.
